Hydrogen eBike

## Hydrogen Electric Bike

Zero carbon emission/long endurance of 80km

### Specification

Drive Mode	Air Cooled Fuel Cell and Lithium Battery Hybrid
Lithium Battery	48V/192.4Wh
Fuel Cell Type	Air cooled fuel cell
Rated Power	550W
Maximum Design Speed	25km/h
Endurance	180km (Flat road)
Hydrogen Purity	99.99%
Hydrogen Storage Method	Alloy hydrogen storage (Solid H <sub>2</sub> storage tank)
Hydrogen Pressure After	0.03-0.05Mpa
Hydrogen Consumption Ratio	3N.L/min @550W
Working Temperature	-10°C - 40°C

### Smart Functions

Applet Unlock	Bluetooth unlock	APP Unlock	Cell Phone NFC Card Unlock
Transaction Alarm	Cycling Statistics	Intelligent Light Sensing Headlights	Smart APP

## Applications

**E-Bike**

**Scooter**

**Tricycle**

**Trolley**

**Can also be customised for boats,yachts,etc.**

📍 Building 12, No. 11, Keyuan Road, Wuyang Street, Deqing County, Huzhou City, Zhejiang, China (Hydrogen Craft Corporation)
