H-Dragon

Multiple Hovering eVTOL

10h

Ultra Long Endurance

990km

Maximum Range

-40°C

Fly Same Way

Multiple Ad Hoc Hovering Capability

Product Introduction

H-Dragon varies from the traditional eVTOL in the way it allows multiple hovering/landing during the flight. The hydrogen lithium hybrid power system allows hydrogen fuel cells to charge lithium batteries during flight. H-Dragon can hover over point of interest up to 3 minutes or make multiple landing and taking off. This revolutionary feature enables many new possibilities of applications.

Product Parameters

Wingspan	Front 3.74 m. Rear 2.82m
Length	2.02m
MTOW	40kg
Maximum payload	8kg
Max endurance	10 hours or 9 hours fully loaded
Max range	990km
Cruising speed	90km/h
Stall speed	19m/s
Operating temperature	-40°C
Wind resistance	17m/s
